RESPONSIBILITIES

For our department Experimental Toxicology and Ecology we are looking for a committed Head of Quality Assurance Unit who will be responsible for the maintenance, the monitoring, and the update of our Quality Assurance Program with direct responsibility to the management.

- o You are in charge of enforcing the compliance with international GLP guidelines (OECD, ChemG, EPA) via regular internal and external facility and study-based inspections.
- o You lead and manage a team of several quality assurance employees and you will conduct GLP training for new personnel and disseminate new GLP information.
- o Besides, you represent BASF in national and international panels on quality assurance and GLP topics.
- o Moreover, you will be the main contact for external audits by sponsors/ clients and inspections by authorities.
- o Further responsibilities in this position include the cooperation with our service and contract management unit to ensure the quality compliance of CROs and suppliers/ vendors.
- o You are also responsible for our ISO 17020 program, and you will support implementation of digital tools in our GLP-environment.

BENEFITS

- o Development discussions and programs so that you can reach your full potential.
- o Onboarding to help you settle in quickly, ensuring you are part of the BASF team from day one.
- o An attractive competitive salary that is based on the company's success and your individual performance.
- o Flexible work arrangements so that you can balance your working life and private life.
